

NEMANJA SMILJANIC

EXPERIENCED SOFTWARE DEVELOPER

I love working on early-stage concepts, brainstorming ideas, and turning them into functional products.

Flexible hours keep me creative (though I'll admit, sometimes I forget where "work" ends and "life" begins).

Most of my tan comes from screen glow - but besides coding, I enjoy beer, love shooting sports (I compete in clay target & IPSC), squeeze in workouts here and there, and never say no to good food.
